

Do not let LPFM stations take priority over current FM stations like K-LOVE. My young baby and I listen to this station on a daily basis in our home and in the car. K-LOVE is a unique station in its Christian music programming, and it is not duplicated in any other station in my area. Thus, eliminating this station's programming would eliminate a positive influence to those who currently listen and to those who will listen in the future. The music and "ministry" provided by K-LOVE is definitely in the public's best interest because of the positive and up-lifting music that it plays.
